

## ***Production Enhancement & Integration Services***

In addition to our high quality, American made press brakes, we are pleased to offer a variety of integration and production enhancement capabilities that can be added to your Pacific machine, including:

### **Production Enhancement**

✓ **Bend Alignment-**

Pacific can outfit any press with our exclusive laser bend alignment system. As a cheaper solution to gaging, these manual or automatically adjustable units allow the operator to know exactly where the punch tip will make contact with the material.

✓ **Tooling Extraction-**

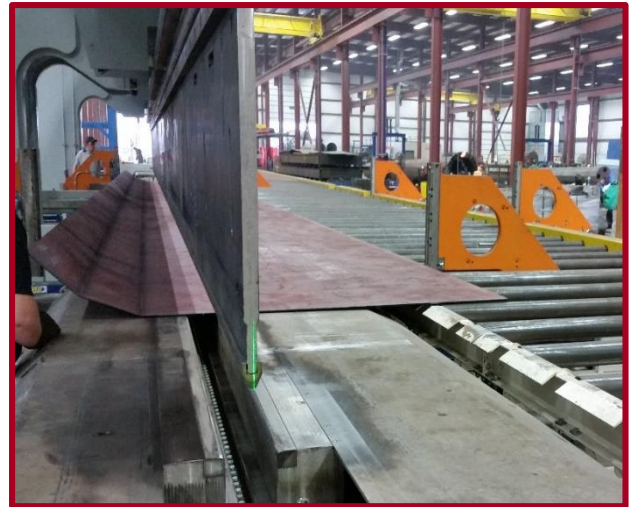

Keep your dies in top condition and your employees safe with Pacific's exclusive tooling extraction systems. Built around your specific machine dimensions, these extractors mount easily to the back of the brake's bed and swivel into position to make punch and die removal safe and efficient

## Integration Services:

### ✓ Conveyor Integration and Material Positioning-

Not only does Pacific build the best press brake equipment in the world, we can help get your material to the brake. From steel roller conveyors to servo controlled crowding tables, Pacific can design systems that increase productivity of material movement.

### ✓ Custom HMI's and Integration

Pacific has the ability to outfit machinery with custom HMI solutions. We can help with product and production specific requests. Pacific can use these custom HMI's for integration of auxiliary components for the ultimate in production enhancement

## Special Tooling:

### ✓ **Automatically Adjusting Channel Dies-**

Pacific offers hydraulically adjusting channel dies to reduce set up time from hours to seconds. The ultimate in productivity enhancement, Pacific's auto dies are tried, tested, and trusted.

### ✓ **Corrugation Dies-**

Bending corrugations are some of the toughest application a press brake will ever be used for. Pacific's patented corrugation design turns a tough job into an easy one.

***Contact us today to learn how any of these value added capabilities can be added to your Pacific Press!***
